

Nordic Steel Construction Conference 2024 – Save the date

The 15th Nordic Steel Construction Conference, organized by The Swedish Institute of Steel Construction (SBI), will be held in Luleå, Sweden, from 26 to 28 June 2024.

NSCC 2024 aims to present the latest research and results of academics and practitioners related to the use of steel and composite structures in structural applications, with the overall objective of promoting and enabling a more sustainable and cost-effective construction sector. The conference will feature traditional paper presentations, keynote speeches by invited speakers and interactive sessions to address state of art technologies and future challenges.

The latest developments in the analysis, design and execution of novel and traditional steel and steel-based composite structures will be presented for a wide range of applications, including buildings, bridges, towers, supporting structures for renewable energy and offshore structures, among others.

Complementing more traditional topics, a specific focus of this event will be on emerging technologies and novel approaches to further increase of the environmental sustainability and economy of structural solutions in steel.

During the three-day conference, the conference attendees will be given the opportunity to visit the HYBRIT (Hydrogen Breakthrough Ironmaking Technology) pilot plant located close to SSAB in Luleå. HYBRIT is a joint venture between the steel producer SSAB, the mining company LKAB and the European energy company Vattenfall, and the aim with the project is to have a full-scale fossil-free process for steel manufacturing ready by 2035. For more information, www.hybritdevelopment.se/en/

Luleå was founded in 1621 and has about 70 000 inhabitants. Even if the city is situated merely 150 km south of the Arctic Circle where the Luleå river meets the Gulf of Bothnia, it is only just over an hour's flight from Stockholm. For more information about Luleå, visit www.visitlulea.se/plan

Key dates:

- 15th June 2023**, open site for submission of abstracts
- 15th September 2023**, deadline for submission of abstracts
- 15th October 2023**, notification of accepted abstracts
- 15th January 2024**, deadline for submission of the full papers
- 1st March 2024**, notification of accepted full papers
- 1st April 2024**, deadline for early bird registration

See you all at NSCC 2024!

Regards from the organization committee, Prof. Ove Lagerqvist and Björn Åstedt
